

Workshop on Career Management

1 Day

PROGRAM OBJECTIVES

- Based On Collective Wisdom Building An Argument On Successful Careers
- Using The World Famed Edgar Schein Framework
- Drawing Out An Individual Career Path

WHO SHOULD ATTEND...

- Mid-Career Company Officers
- Management Trainees

Why Career Management...

Career management is the combination of structured planning and the active management choice of one's own professional career. The outcome of successful career management should include personal fulfillment, work/life balance, goal achievement and financial security. A career includes all types of employment ranging from semi-skilled through skilled, and semiprofessional to professional.

In the context above Aspire presents this one day exciting workshop.

Special Features

At the heart of the workshop is the concept of the Career Pathfinder. The idea has been further developed by using career anchors as presented by Edgar Schein. The career anchor is a combination of perceived areas of competence, motives and values that one would never give up. It represents real self. Without knowledge of your anchor, outside incentives might tempt you into situations or jobs that subsequently are not satisfactory because one feels that "this is not really me". The Edgar Schein frame work is the core feature of the workshop. The activities that follow are not tests, rather they represent a systematic way to explore our own past activities and future aspirations.

About Us...

We are not starting in 2016 in fact we started in 2001 when Chaudry Fazle Muqeem returned from Warwick, Mobashar Sadik was already a part of the most popular Business School in Islamabad & Noor Ahmed was breaking into an international career after graduating from a top Business School. All three of these gentlemen now form the core of what is "Aspire Consulting"- A training, organizational development & an academic institutions' capacity building company.

Our Vision is "To Do More With Less", Our Mission is to "Up-Skill Pakistan" & our Mantra is "Professionalism is ultimately a self-serving concept and money is but a by-product of it"

Note: The training design will be customized after deliberations with the client
